

UHMWPE Sheets & Custom Machined Parts

Sheet stock and CNC machining data sheet

Technical Data

Material	UHMWPE
Colors	Black / red / white / green / blue
Sheet format 1	2460 x 1230 mm; thickness 6-50 mm
Sheet format 2	3100 x 2100 mm; thickness 12-200 mm
Processing	Cutting / drilling / milling / CNC machining
Supply	Full sheets / cut-to-size blanks / machined components

Key Features

- High wear resistance, low friction, impact resistance and low water absorption for industrial use.
- In-house sheet handling and CNC machining for project-specific parts.
- Multiple colors, thicknesses and stock formats are available according to production and inventory.

For quotation / selection

Please send material grade / application, sheet length x width x thickness, quantity, machining drawing (if applicable) and destination.
